WishGarden Herbs Develops New Natural Cleansing Hand Spray
Company Will Give Away Free Cleansing Spray To Its Valued Partners

[WishGarden Herbs, Inc.](http://WishGardenHerbs.com), one of North America's leading providers of herbal liquid extracts, announced today that it will be shipping a newly developed artisanal cleansing hand spray and gift baskets to retail partners to thank them for their efforts during the coronavirus pandemic.

"During these challenging times we have made it our priority to rally as a community in support of one another, and do as much as we can to ease the stress and toll it is taking on so many," said Catherine Hunziker, President and Chief Formulator of WishGarden Herbs.

"The natural products industry has a long tradition of being at the forefront of supporting a healthy community. And to that purpose, our retail partners have continued to serve that mission daily in wellness departments all across the country during this pandemic. In profound gratitude WishGarden has developed a natural hand cleansing spray called Peaceful Protector that we will be gifting them as one small token of our appreciation."

"This was an all-hands effort to develop a high-quality natural cleanser that combines essential oils with skin-friendly ingredients so quickly. I'm so proud of how rapidly this all came together," said Hunziker. "At some point in the future we may bring it to market, but that is a decision for later. Right now we are primarily concerned with helping our partners feel safe."

WishGarden is well-known for its popular herbal liquid extracts, teas, and body care. It is a woman-owned, multi-generational company committed to providing artful whole herb liquid extracts that are fast-acting and gentle on the body. Founded in 1979 and based in Colorado, WishGarden pioneered condition-specific blends and catchy names in the '90s. We continue to be a market leader raising the bar on efficacy and convenience with dependable in-the-moment solutions for common and seasonal discomforts.
